JOSEPH WEISS & SONS INC.

fabricators, suppliers and installers of domestic and foreign granites

Latest type of 6-strand wire saw for cutting of 25-ton granite blocks.

plant efficiency and economy

Ours is one of the largest and most modern plants in the East. It includes the latest type of multiple wire saws, gantry polishing equipment, contour grinding and numerous other stone cutting and finishing machines. Our years of experience and modern equipment have resulted in greater efficiency and economy, thus making granite competitive with other types of building facing materials.

service

Because of our convenient location within New York City and extensive fabricating facilities we can assure immediate service and delivery.

installation

We maintain complete granite setting crews and equipment and do provide full installations where desired.

stock

Extensive variety and quantity of all domestic and foreign granites are always on hand. Numerous blocks of all granites are stocked at our plant.

Automatic polishing machine capable of producing hundreds of square feet of granite per day.

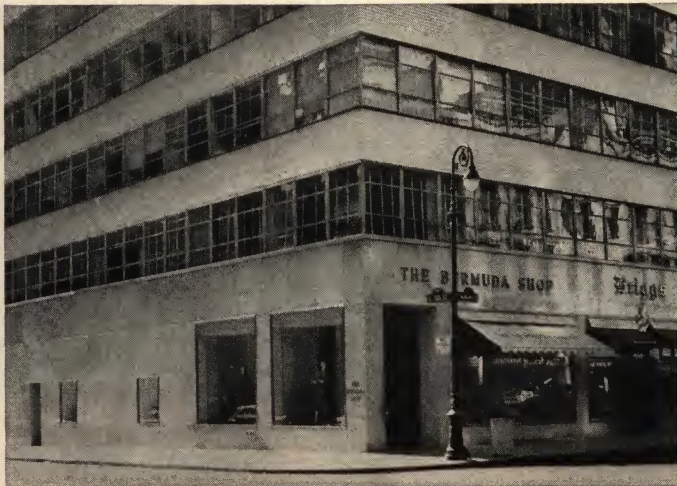

75 H.P. grinding machine for cutting curved granite surfaces.
